

NEWS RELEASE

Orford Announces Commencement of Exploration Program on the Carolina Gold Properties

Toronto, Ontario, November 28, 2017 – Orford Mining Corporation (“Orford”) (TSX-V: ORM) is pleased to announce that the 2017 field program has commenced at its Carolina Gold Properties in North and South Carolina. The program will be carried out in two phases: a first phase of relogging of historical core, surface mapping, trenching, and geophysics, and a second phase of drilling.

David Christie, President and CEO of Orford, commented, “We look forward to these initial exploration activities on Orford’s very prospective properties in the re-emerging U.S. Carolina Gold Belt.”

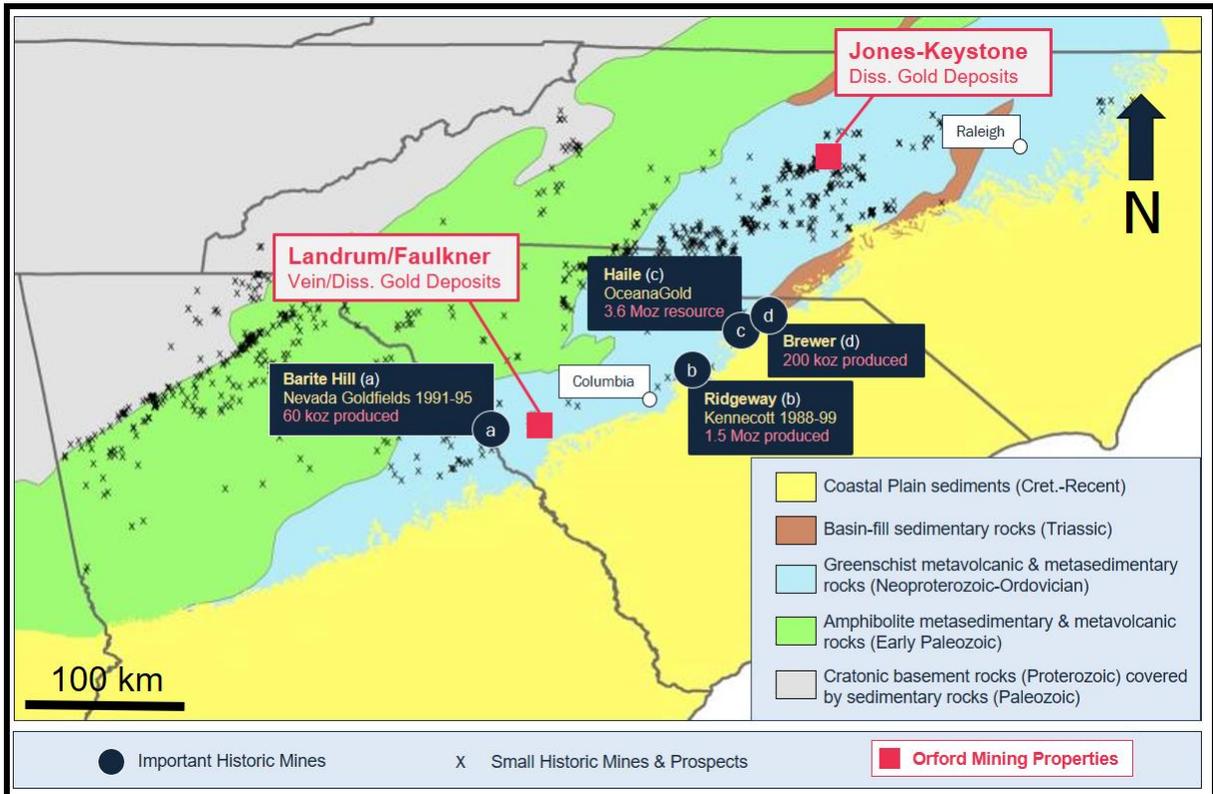

Orford is party to an option agreement with Carolina Gold Resources Inc. to earn a 70% interest in the Jones-Keystone and Landrum-Faulkner Properties located, respectively, in North Carolina and South Carolina. The properties are located in the Carolina Gold Belt, home to Oceana Gold’s producing Haile Mine (3.7 Moz resource at 1.8 g/t Au¹) and the past-producing Ridgeway Mine.

The Jones-Keystone and Landrum-Faulkner Properties occur at or near the same regional geological contact as the Haile and Ridgeway mines. At Jones-Keystone, mineralization is exposed at surface and historical drilling has yielded multiple drill hole intercepts in the 1 to 3 g/t range, including an interval of 1.56 g/t Au over 54m core length (which includes 3.01 g/t Au over 28m core length) in historical hole JK10-006, and an interval of 1.27 g/t Au over 104m core length (which includes 3.03 g/t Au over 14m core length) in historical hole JK11-017^{2,3}.

Qualified Person

The disclosure of scientific and technical information contained in this news release has been approved by Alger St-Jean, Vice President, Exploration of Orford, a Qualified Person under NI 43-101.

The information in this release has been prepared by management of Orford based on available historical information and does not meet the 43-101 standard for disclosure. There is no current report prepared in conformance with NI 43-101. Reference is made to the Management Information Circular dated September 18, 2017 filed on Orford's profile on SEDAR.

About Orford Mining Corporation

Orford Mining is a mineral explorer focused on highly prospective and underexplored areas of Northern Quebec and the Carolina Gold Belt in United States. Orford's principal assets are the Qiqavik and West Raglan projects comprising of a land package totaling over 70,000 hectares in the Cape Smith Belt of Northern Quebec and properties in the U.S. Carolina Gold Belt. The Qiqavik Project hosts several new high-grade gold discoveries along a mineralized trend in excess of 40 km. Orford's common shares trade on the TSX Venture Exchange under the symbol ORM.

Cautionary Statement Concerning Forward-Looking Statements

Neither the TSXV nor its Regulation Services Provider (as that term is defined in the policies of the TSXV) accepts responsibility for the adequacy or accuracy of this release.

This news release contains "forward-looking information" including without limitation statements relating to the liquidity and capital resources of Orford and potential of one or more of the Qiqavik, West Raglan, Jones-Keystone Loflin and Landrum-Faulkner exploration properties.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Orford to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Factors that could affect the outcome include, among others: future prices and the supply of metals; the results of drilling; inability to raise the money necessary to incur the expenditures required to retain and advance the properties; environmental liabilities (known and unknown); general business, economic, competitive, political and social uncertainties; accidents, labour disputes and other risks of the mining industry; political instability, terrorism, insurrection or war; or delays in obtaining governmental approvals, failure to obtain regulatory or shareholder approvals. For a more detailed discussion of such risks and other factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements, refer to Orford's filings with Canadian securities regulators available on SEDAR at www.sedar.com.

Although Orford has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are made as of the date of this news release and Orford disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise, except as required by applicable securities laws.

The TSXV has neither approved nor disapproved the contents of this news release.
