Orford Announces Postponement of its Annual General Meeting

Toronto, Ontario, June 30, 2020 – Orford Mining Corporation (“**Orford**”) (TSX-V: ORM) announces that due to ongoing concerns related to the spread of COVID-19, and in order to mitigate potential risks to the health and safety of its shareholders and communities, the Company has elected to postpone its annual general meeting of shareholders (the “Meeting”). As the COVID-19 situation evolves, Orford will set a date for the Meeting and file a notice of meeting and record date on SEDAR (www.sedar.com). The Company is also relying on the temporary blanket relief provided by the Canadian Securities Administrators, including the exemptive relief contained in Ontario Instrument 51-504 – Temporary Exemptions from Certain Requirements to File or Send Securityholder Materials of the Ontario Securities Commission, to postpone the filing of its executive compensation disclosure until such time as it is filed and delivered to shareholders as part of the Company's management information circular (the “Circular”) relating to the Meeting. In light of current advice from governmental and medical authorities on public gatherings, Orford is, for the time being, encouraging shareholders and others not to attend the Meeting in person. Instead, shareholders should vote their shares prior to the Meeting as per the voting and proxy instructions that will be set out in the Circular and participate in the Meeting by way of live audio conference call. Further details with respect to the conference call will be included in the Circular. The Company is continuing to closely monitor developments related to COVID-19 and may alter the format of the Meeting based on changing conditions and the prevailing advice at the time regarding restrictions on the number of people who can safely congregate.

About Orford Mining Corporation

Orford Mining is a gold explorer focused on highly prospective and underexplored areas of Northern Quebec. Orford's principal assets are the Qiqavik and West Raglan projects comprising a land package totaling over 80,000 hectares in the Cape Smith Belt of Northern Quebec. The Qiqavik Project hosts several new high-grade gold discoveries along a mineralized trend in excess of 40 km. The West Raglan project hosts a number of high grade Raglan-style nickel/copper/platinum group metal discoveries along a 55 km mineralized trend. Orford also recently acquired two property positions in the Joutel region of the Abitibi district of northern Quebec, which hosts historical deposits such as the Eagle/Telbel, Joutel Copper, Poirier Copper, and Vezza deposits. Orford continually seeks new gold exploration opportunities in North America. Orford's common shares trade on the TSX Venture Exchange under the symbol ORM. This information from neighbouring properties is not necessarily indicative of the mineralization on Orford Mining's properties.
