

JOB POSTING

AVAILABLE POSITION : Exploration Geologist

Orford Mining is looking for an experienced exploration geologist to help in making discoveries on our Gold projects in the Abitibi and Nunavik. As part of a small team of dedicated professional looking to make Canada's next big discovery, this position provides an opportunity for a geologist to rapidly acquire hands-on experience in all facets of the mining business related to exploration and development

This position would be based in the Abitibi and is offered as a 6-month full time contract, with the opportunity to transition to a permanent position.

Responsibilities :

- Conduct a variety of local and regional exploration activities, including supervising drill programs, geological mapping and prospecting, logging core.
- Aiding in compilation/data entry and interpretation of geological, geophysical and geochemical data to help define drill targets
- Aid in logistical activities and tasks in the field as assigned
- Assisting in project review and evaluation related to new property acquisitions.
- Demonstrate diligence in technical quality control, respect for host communities and environmental protection.
- Apply and Adhere applicable laws and regulations.

Desired Qualifications :

- Experience in supervising drill programs, logging core
- Experience in geological mapping, prospecting and geochemical sampling.
- Experience preparing assessment reports and filings in Quebec
- Experience with microsoft office , GIS software (ArcGIS) and 3D modelling/drill hole planning software.
- Willingness and availability to work in remote and semi remote locations from time to time.
- Ability to navigate in remote areas using compass and GPS
- Citizen or permanent resident of Canada
- Diploma in Geology or Geological Engineering
- Membre of the OGQ or the OIQ.
- At least 5 years experience in exploration
- Valid G class/class 5 drivers License or equivalent

Additional Qualifications :

- Experience related to permitting drill program/roads
- Experience managing databases/data
- Experience in orogenic gold exploration

- Firearms permit

À propos de Orford Mining

Orford mining is a junior mineral exploration company focused on gold exploration in underexplored regions of Quebec in the Abitibi and Nunavik regions, while we work to develop additional opportunities in Canada. As part of a small team of dedicated professional looking to make Canada's next big discovery, this position provides an opportunity for a geologist to rapidly acquire hands-on experience in all facets of the mining business related to exploration and development.
