

## **JOB POSTING**

### **AVAILABLE POSITION : Junior Geologist**

Orford Mining is looking for an experienced exploration geologist to help in making discoveries on our Gold projects in Nunavik. As part of a small team of dedicated professional looking to make Canada's next big discovery, this position provides an opportunity for a geologist to rapidly acquire hands-on experience in all facets of grassroots exploration,

This position would be for two months July and August 2021 based out of our fly-in Camp Chukotat Camp, located approximately 100km south of Salluit, Nunavik, Quebec.

#### **Responsibilities :**

- Conduct a variety of local and regional exploration activities, including geological mapping and prospecting and geochemical sampling under the supervision of a Senior Geologist
- Aiding in compilation/data entry and interpretation of geological, geophysical and geochemical data to help define drill targets
- Aid in logistical activities and tasks in the field as assigned
- Demonstrate diligence in technical quality control, respect for host communities and environmental protection.
- Apply and Adhere applicable laws and regulations.

#### **Desired Qualifications :**

- Experience in geological mapping, prospecting and geochemical sampling.
- Experience with microsoft office , and GIS software (ArcGIS)
- Willingness and availability to work in remote locations for up to 6 weeks.
- Ability to navigate in remote areas using compass and GPS
- Citizen or permanent resident of Canada
- Enrollment in Geology or Geological Engineering program
- Membre of the OGQ or the OIQ as a geologist in training or engineer in training
- At least 1 year experience in exploration
- Valid G class/class 5 drivers License or equivalent

#### **Additional Qualifications :**

- Experience managing databases/data
- Experience in orogenic gold exploration
- Firearms permit

**About Orford Mining**

Orford mining is a junior mineral exploration company focused on gold exploration in underexplored regions of Quebec in the Abitibi and Nunavik regions, while we work to develop additional opportunities in Canada. As part of a small team of dedicated professional looking to make Canada's next big discovery, this position provides an opportunity for a geologist to rapidly acquire hands-on experience in all facets of the mining business related to exploration and development.
