

## NEWS RELEASE

### Orford announces financing of up to \$1.0 million

#### NOT FOR DISTRIBUTION TO U.S. NEWS WIRE SERVICES OR DISSEMINATION IN THE UNITED STATES

Toronto, Ontario, November 7, 2023 – Orford Mining Corp. (“**Orford**” or the “**Company**”) (TSX VENTURE: ORM) is pleased to announce a non-brokered private placement of up to: (i) 15.0 million in the aggregate “flow-through” share units (“**FT Units**”) at an issue price of C\$0.05 per unit, and (ii) 5.8 million “hard dollar” share units (“**HD Units**”) at an issue price of C\$0.045 per unit, (the “**Offering**”), to raise gross proceeds of up to \$1,011,000 from the sale of FT Units and HD Units, or any combination thereof. Each FT Unit and HD Unit will consist of one common share and one-half of a common share purchase warrant. Each whole common share purchase warrant will entitle the holder to purchase one common share of the Company for a period of two years at an exercise price of \$0.065. Alamos Gold (AGI-TSX) has indicated that it intends to participate in the financing to maintain its pro-rata holding of approximately 27.9% of Orford’s outstanding common shares.

Orford intends to use the net proceeds from the Offering on its exploration programs in the Nunavik Region of Northern Quebec, in particular its Qiqavik Gold project, the Nunavik Lithium project and on its Joutel regional properties in the Abitibi Region of Northern Quebec, and for general corporate purposes. The South Gold Zone on the Joutel-Eagle property in the Abitibi Greenstone Belt of Northern Quebec is intended to be the focus of a 2024 winter drilling program. The Qiqavik project represents what Orford believes is a new gold district discovery in the Cape Smith Belt of Northern Quebec. The Nunavik Lithium project represents an underexplored new lithium district in Canada.

The Offering is subject to the prior approval of the TSX Venture Exchange. The securities issued under the Offering will be subject to a hold period expiring four months plus a day from the date of closing.

The Corporation proposes to engage certain finders, duly registered as required under the Securities Act (Ontario) or equivalent legislation (each, a “**Finder**”), to assist in locating investors for the Private Placement and to pay each applicable Finder a fee (the “**Finders Fee**”) consisting of (1) a cash amount equal to 6% of the gross proceeds of the Private Placement raised from investors located by an applicable Finder; and (ii) up to such number of non-transferable compensation warrants (“**Finders Warrants**”) as is equal to 6% of the aggregate number of HD Units and FT Units sold to subscribers referred to the Private Placement by such finders, with each Finder Warrant entitling the holder to acquire one Common Share (a “**Finder Warrant Share**”) at a price of \$0.05 for a period of 24 months from the Closing Date.

The purchase of securities pursuant to the Offering by Alamos (an insider of Orford) will constitute a “related party transaction” as such term is defined by Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions (“**MI 61-101**”). The transaction will be exempt

from the MI 61-101 valuation and minority approval requirements for related party transactions in connection with the Offering under sections 5.5(a) and 5.7(1)(a) of MI 61-101 as neither the fair market value (as determined under MI 61-101) of the subject matter of, nor the fair market value of the consideration for, the transaction, insofar as it involves the Related Parties, exceeds 25% of the Company's market capitalization (as determined under MI 61-101). The Company is not filing a material change report in respect of the related party transaction at least 21 days before the closing of the Offering, which the company deems reasonable in the circumstances so as to be able to avail itself of the proceeds of the Offering in an expeditious manner.

### **About Orford Mining Corporation**

Orford Mining is a gold and critical mineral explorer focused on highly prospective and underexplored areas of Northern Quebec. Orford's principal assets are the Qiqavik, West Raglan and lithium exploration projects comprising a land package totaling over 111,000 hectares in the Cape Smith Belt of Northern Quebec. The Qiqavik Project hosts several new high-grade gold discoveries along a mineralized trend in excess of 40 km. The West Raglan Project hosts a number of high-grade Raglan-style nickel/copper/platinum group metal discoveries along a 55 km mineralized trend. In early 2023 Orford acquired large claim blocks targeting lithium in the Nunavik Region. These lithium claim blocks have been carefully selected as having promising lithium potential after an exhaustive compilation of available data. Orford also has four property positions in the Joutel region of the Abitibi District of Northern Quebec, which hosts historical deposits such as the Eagle/Telbel, Joutel Copper, Poirier Copper, and Vezza deposits. Orford continually seeks new gold exploration opportunities in North America. Orford's common shares trade on the TSX Venture Exchange under the symbol ORM. This information from neighbouring properties is not necessarily indicative of the mineralization on Orford Mining's properties.
